

OFFER BIOCONJUGATION SERVICES

MAIN ADVANTAGES:
IMPROVES ASSAY SENSITIVITY
PRESERVES BIOLOGICAL ACTIVITY
AVOIDS NON-SPECIFIC BINDINGS
ULTRA STABLE CONJUGATES

OUR EXPERTISE

A key challenge for many applications is to control the organization of biomolecules (such as enzymes or antibodies) on nanoparticles whilst retaining their biological activity. We are experts in oriented bioconjugation, providing exclusive kits and custom services for any kind of biomolecule conjugation on nanoparticles and surfaces, adapting to our customers' needs.

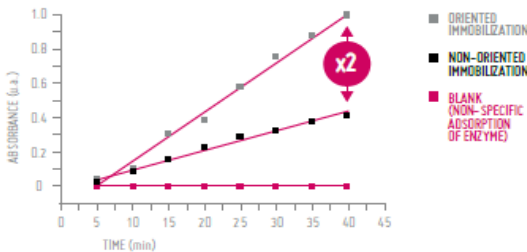

WHEN BIOMOLECULE ORIENTATION DOES MATTER

FUNCTIONALIZATION OF SURFACES FOR ORIENTED IMMOBILIZATION OF ANTIBODIES

ENZYMATIC ACTIVITY AFTER BINDING TO ANTIBODY

APPLICATIONS:

BIOSENSORS DESIGN
SURFACES FUNCTIONALIZATION
LATERAL FLOW TEST
MAGNETIC SEPARATION
